PROFILE OF TSCM™ SERVICES

TSCM™ Services, based in South Africa, is a **LEADING** countermeasures company in the World, specialising exclusively in business counterintelligence and countersurveillance services.

In addition to our countermeasures **services** we also offer high quality countermeasures and privacy protection **equipment** for various protection levels. We also present technical surveillance countermeasures **training** courses for corporate, government and security professionals.

TSCM™ Services was founded in 1996 by counterintelligence, technical surveillance countermeasures and intelligence specialists offering unique services to combat the growing treat of industrial espionage and illegal eavesdropping and surveillance. We have extensive verifiable experience and training in technical surveillance countermeasures/counterintelligence and regularly work with international specialists.

The company is situated in Centurion (Pretoria), Gauteng, South Africa, 15 kilometers south of the Capital city, Pretoria and about 40 kilometers north of the Johannesburg business hub. We work nationally and regularly visit the other main business areas in South Africa. (Cape Town, Port Elizabeth and Durban)

We also undertake international assignments on a selective basis and have performed surveys

in Europe, Scandinavia, the UK and Africa for a number of South African companies with overseas offices and business interests as well as a number of international companies and clients.

We are at present the only company in South Africa and one of a few in the World that specialises exclusively in business counterintelligence matters and technical surveillance countermeasures.

We only accept instructions from legitimate and identifiable companies and individuals. We do not accept instructions in South Africa where the involvement of any of the South African Intelligence or Law Enforcement Agencies would be anticipated.

No services in contravention of Act 70 of 2002 (Regulation of Interception of Communications and Provision of Communications Related Information)) will be performed. **We do not engage in bugging, wiretapping or electronic espionage.**

If you suspect that you or your company could be the target of illegal technical surveillance please do not call or fax us from a telephone or office that you fear may be targeted. Use a safe phone away from the premises.
